EDUCATION

Texas A&M University, College Station, TX Graduating May 2027

- Bachelor of Science in Computer Science, Minor in Engineering Project Management, GPA: 3.74
- **Relevant Coursework:** Data Structures & Algorithms, Principles of Statistics, Software Engineering, Computer Systems, Public Speaking, Database Systems, Robotics and Spatial Intelligence, Artificial Intelligence

WORK EXPERIENCE

Product Management Intern – Blackhawk Network Jun 2026 – Aug 2026

- Led a global enterprise onboarding initiative **end-to-end**, projecting **50% reduction** in manual work hours by scoping an **MVP based on ROI** and implementation effort, and collaborating cross-functionally with engineering on the build.
- Uncovered **10+ prioritized pain points** across the onboarding customer journey by conducting **15+ stakeholder interviews**, synthesizing findings into a **roadmap and PRD**, using **AI tools** to accelerate the process.
- Aligned senior leadership and multiple **VPs company-wide** on top-priority problems, revealing only **36%** of onboarded content was actively selling, then validated solution direction by prototyping with engineers, designers, and stakeholders.

Undergraduate Teaching Assistant – College of Engineering, Texas A&M University Aug 2025 – Present

- Supporting **100+ students** by diagnosing coding challenges and simplifying feedback processes, improving comprehension of algorithms and programming concepts.

Software Intern – Robotic Perception, Agriculture AI startup Jun 2025 – Aug 2025

- **Led an end-to-end dataset pipeline project**, managing a team of 3 to deliver 1,500+ annotated images for ML model training.
- Built an optimized Python-based annotation pipeline that **cut preprocessing time 40%**, partnering with engineers and PMs to align training data with product requirements.

President – Chabad Jewish Student Organization Dec 2023 – Present

- Lead a **200+ member** organization, overseeing strategic planning, budgeting, operations, event logistics, and vendor partnerships.

Water Safety Instructor & Lifeguard Aug 2021 – Present

Carpenter Recreation Center, Plano, TX & Texas A&M Rec Sports

- Delivering structured swim programs for **500+ students** while designing Canva marketing campaigns that **boosted enrollment 20%**.
- Implementing process and safety protocol improvements, enhancing reliability for **100+ daily patrons**.

PROJECTS – [Portfolio](#) / [Case Studies](#)

Zylo Healthcare Scheduling Platform – Product Ideathon – emily6g.github.io/Zylo Mar 2026

- Built a functional healthcare scheduling prototype in a **12-hour ideathon**, designing conflict detection, waitlist prioritization, and no-show prediction to reduce hospital delays.
- Developed the working dashboard using **Claude Code (JavaScript, HTML, CSS, JSX)**, balancing information density with usability for healthcare coordinators.

Amazon Rufus AI Redesign – Product Management Club (**Honorable Mention**) – [View Prototype](#) Jan – Apr 2026

- Led a semester-long research project including competitive analysis, uncovering that **72% of users** had never heard of Rufus and only **15%** engaged with it, identifying low discoverability and decision fatigue as core adoption barriers.
- Designed an end-to-end **Figma** prototype with guided onboarding, contextual prompts, and actionable outputs, targeting a defined **North Star Metric (First Interaction Value Rate)** to convert the **60%+ user trust rate** among engaged users into shortlist and cart-ready actions.

SKILLS

Product & Design: Product Management, Product Roadmapping, Stakeholder Communication & Alignment, User Research, UI/UX Design, Prototyping, Agile/Iterative Development, Cost-Benefit Analysis, ROI

Technical: Python, Java, C++, JavaScript, HTML, CSS, SQL, Machine Learning Fundamentals, Generative AI, KPIs

Tools: Figma, Jira, Confluence, Git, Canva, Google/Microsoft Office Suite

Languages: English (fluent), Hebrew, Russian (conversational)
